Summary

Detail-oriented Computer Science and Design undergraduate with expertise in **Full Stack**, **Web Applications**, **Web Architecture**, **Front End Web**, and **JavaScript**. Experienced in **project management skills**, **programming languages**, and **front end languages**. Known for **attention to detail**, **problem solving skills**, and **organizational skills**. Seeking a Full Stack Developer role to contribute to scalable and responsive web solutions.

Education

SRKR Engineering College, Bhimavaram

Sep 2023 – Present

B.Tech in Computer Science and Design

CGPA: 8.21

- Specialization: **Full Stack Development**, **Web Architecture**, Software Engineering, Data Structures, Algorithms, Cloud Computing.

Experience

FullStack Developer Intern at Saketh AI Automation

Link

Sep 2025 – Present

Smile Dental – Location-Based Dental Clinic Finder

- Architected a **Full Stack Web Application** to help users locate nearby dental clinics with real-time data.
- Implemented **Web Architecture** best practices using **React.js**, **Node.js**, **Postgres SQL**, **Tailwind CSS**, **n8n**, **OAuth**.
- Refined user experience with advanced filters, clinic details, reviews, and appointment scheduling in **Front End Web**.
- Coordinated development tasks leveraging **project management skills** to deliver a scalable solution.

FullStack + Prompt Engineering Intern at ASVIX

Link

Jun 2025 – Sep 2025

MediBot – AI-Powered Health Companion

- Implemented a **Full Stack** AI-driven health assistant **Web Application** using **React**, **Node.js**, **Express**, **Supabase**, **Tailwind CSS**, **JWT**.
- Enhanced patient understanding and reduced confusion by 70% through **LLMs** and prompt engineering techniques.
- Automated medication reminders and notifications, increasing adherence by 40% using backend scheduling, APIs, and cloud database integration.
- Applied **attention to detail** and **problem solving skills** while integrating **TypeScript**, **Next.js**, **Tailwind**, **Firebase**, **AI/ML**, **Prompt Engineering**.

Freelance Fullstack Developer

Link

Sep 2025 – Oct 2025

Full Stack Developer

- Launched a **Full Stack** e-commerce **Web Application** using **React.js**, **Node.js**, **Supabase**, **Tailwind CSS**, reducing checkout and page load time by 75%.
- Integrated **JWT** authentication, **OTP** verification, **Razorpay** payment gateway, and fuzzy search for secure operations.
- Delivered a real-time admin dashboard with analytics, geolocation-based delivery, and order management; deployed at akepatimart.com.
- Applied **Web Architecture** principles for scalable backend/frontend integration.

Freelance Fullstack Web Developer

Link

Oct 2024 – Dec 2024

Full Stack Developer

- Delivered a school platform **Web Application** for teachers and students, focusing on **Front End Web** usability.
- Designed interactive dashboards and forms to improve user engagement.
- Secured login/authentication and role-based access control.
- Utilized **HTML**, **CSS**, **JavaScript**, **PHP**, **MySQL**.

Projects

NeuroHUB – Neurodiversity Platform <i>Inclusive platform for neurodivergent individuals</i>	Link	2025
– Architected an inclusive platform serving individuals with ADHD, autism, and dyslexia as a Web Application. – Enhanced accessibility and reduced cognitive load by 50% using dyslexia-friendly typography and UI principles. – Integrated Firebase for real-time content delivery and seamless Full Stack performance.		
ReDestiny – Smart URL Shortener <i>Scalable web app for secure custom URL shortening</i>	Link	2025
– Developed a scalable Full Stack Web Application for secure custom URL shortening with real-time analytics. – Improved user retention by 30% through interactive UI and personalized dashboards in Front End Web.		
Sujay Babu Thota’s Portfolio <i>Showcase of full-stack and frontend web applications</i>	Link	2025
– Demonstrates proficiency in Next.js, React, TypeScript, Tailwind CSS, JavaScript and Web Architecture. – Incorporates smooth animations using Framer Motion and iconography via React Icons. – Optimized for static deployment on Vercel, showcasing strong Project Management Skills and scalable design.		

Technical Skills

Languages: JavaScript, Python, PHP, TypeScript, Java
Frontend: React.js, HTML5, CSS3, Tailwind, Bootstrap, Material UI, Front End Web
Backend/DB: Node.js, NextJS, PHP, MongoDB, MySQL, Firebase, Supabase, Full Stack
Tools/Practices: Git, GitHub, Vercel, Netlify, Render, Agile, REST APIs, CI/CD, Project Management Skills
ML/AI: Machine Learning Basics , Prompt Engineering, AI APIs
Web Applications: Web Architecture, Responsive Design, Scalable Systems
Soft Skills: Attention to Detail, Excellent Verbal Communication, Problem Solving Skills, Organizational Skills

Achievements

GDG Campus Hackathon	2024
– Delivered a complete Full Stack Web Application NeuroHub solution within 24 hours. – Ranked among top 3 out of 50+ teams for a functional and user-centric app.
