SUMMARY

Software Development Engineer with hands-on experience delivering production-grade full-stack systems. Skilled in engineering scalable MERN and Next.js applications, enhancing backend performance, and shipping reliable features with measurable impact. Actively building expertise in AI-driven systems and intelligent automation.

SKILLS

Programming Languages: JavaScript, Python, PHP, TypeScript, Java

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

Backend / Databases: Node.js, Express.js, MongoDB, MySQL, Firebase, Supabase

Developer Tools: Git, GitHub, Vercel, Netlify, Render, Postman, Figma, CI/CD

AI / Automation: Machine Learning, Prompt Engineering, N8N, AI APIs, RAG, CAG

EXPERIENCE

Techhub Mar 2026 – Present
Software Developer (Trainee → Full-Time)

- Promoted from trainee to full-time Software Developer based on performance and project contributions.
- Developing mobile and web applications using React Native and modern JavaScript frameworks.
- Contributing to production projects while strengthening skills in scalable system design.

Brandverse Technologies India Pvt. Ltd. | <https://akepatimart.com/> Jul 2025 – Dec 2025
Full Stack Developer Intern (Remote)

- Engineered 6+ MERN stack features end-to-end, accelerating release cycles by 30–40%.
- Architected reusable React component systems across 4+ modules, reducing UI rework.
- Defined and exposed 8+ REST APIs with Redis caching to enhance response times under load.

Asvix — MediBot AI | <https://www.medibot-ai.com> Jun 2025 – Sep 2025
Software Development Engineer and Prompt Engineering Intern (Remote)

- Integrated frontend and backend services for an AI healthcare platform supporting 100+ users.
- Executed OAuth-based authentication with email verification, maintaining 99.9% uptime.
- Tuned Next.js App Router, SSR, and Firebase schedulers across 15+ routes.

WonderKids | <https://wonderkids.great-site.net/> Oct 2024 – Dec 2024
Freelance Full Stack Developer

- Digitized academic workflows by **65%** through a centralized school management platform.
- Created secure backend services using PHP and MySQL.
- Launched a web-based system to digitize school operations and update daily academic activities.

PROJECTS

Prompt2Code — VS Code Extension | marketplace.visualstudio.com/items?itemName=SujayBabuThota.prompt2code Feb 2025

- Developed a VS Code extension providing AI-based code suggestions and editor assistance.
- Integrated external AI services to generate context-aware responses from user input.
- Implemented core features using VS Code Extension API with focus on reliability.

CodeDale — Frontend Web Application | <https://code-dale.vercel.app> Nov 2025

- Developed a scalable React frontend with reusable components across 5+ pages.
- Refined UI responsiveness and layout consistency using Tailwind CSS.
- Streamlined navigation and internal linking, improving engagement and tool adoption by 10+ users.

NeuroHub — Neurodiversity Support Platform | <https://neurohub.vercel.app> Mar 2025 – Jun 2025

- Built an accessibility-first full-stack platform with real-time progress tracking.
- Established secure authentication and backend workflows.
- Recognized as a finalist at GDG Campus Hackathon among 50+ teams.

EDUCATION

SRKR Engineering College	Expected May 2026
B.Tech — Computer Science and Design	CGPA: 8.24
Smt. B. Seetha Polytechnic	2020 – 2023
Diploma — Computer Science	Percentage: 78.31

ACHIEVEMENTS

- Finalist at GDG Campus Hackathon for NeuroHub.
- Delivered multiple production-ready systems across internships and freelance roles.
